

# Middleschoolandia

It's the scariest place on earth...so why do we send our kids?

## **An irreverent New Musical**

Middleschoolandia is an irreverent musical comedy performed largely by actual middle schoolers. These young people, filled with hormones and hope, are thrust into a frightening world of "education". As they learn to navigate the complexities and hypocrisies of middle school. Overwhelmed teachers, overpowering hormones, and a crippling weight in backpacks all contribute to the hilarious journey of Middleschoolandia.

## **A hilarious satire on the tragedy of our school system.**

With songs such as "I'm Only Twelve" and "The Profanity song", Middleschoolandia is a musical that everyone can relate to, while pointing out the impossibility of making it through Middleschoolandia unscathed.

## **A diversity cast with a universal experience**

All the songs and scenes in Middleschoolandia are created by experiences from Carson Goring, age 12, and her mom, Victoria Goring, who was shortlisted twice for Juilliard.
